

Puzzle and Dragons Leader Finder

Time to Complete: 5 days

Puzzle and Dragons (PAD) does not have a built-in friend finder. Gungho is looking for some college students to throw together a website with the functionality. Starter code is provided, in the folder starterCode. Add the required features in the following files:

App.js

- Implement basic CRUD features by filling out the commented code
- Make sure that input for updateData is a valid number between 1 and 6196
- TeamImgs
 - Display images of all three leaders
 - Tie onClick to each image for updating specific leaders
- TeamIDs
 - Display ID numbers of all three leaders
 - Tie onClick to each ID for updating specific leaders

team.js

- Get
 - Return the contents of the entire database
- Post
 - Add an entry to the database by setting values for all fields in the Schema
- Put
 - Use findOneAndUpdate using the userID to make changes to leaders
 - Update one of three leaders specified by from App.js
- Delete
 - Use userID as the identifier for the entry to be deleted
